Allow me to call your attention to my PREPARATION OF COMPOUND EXTRACT BUCHU. The component parts are, BUCHU. Lone Lar, CUBRUS, JUNI-PER BERRIFES.

Monner FIREPARATION—Buchu, in vasne, Juniper Berries, by distillation, to form a fine gin. Cubebs extracted by displacement with epiris obtained from Juniper Berries, very little sugar is used, and a small proportion of spirit. It is more palable than any now in use.

Buchu as prepared by Draggists, is of a dark and, relative stative principle leaving a dark and gintineus decortion. Mine is the color of ingredients. The Draun in my reparation precominates; the smallest quantity of the other ingredients are sided, to prevent fermentation; upon inspection it will be found not to be a Tincture, as made in Pharmacopous, nor is it a Syrup—and therefore can be used in cases where fever or information exists. In this, you have the knowledge of the ingredients are information exists. In this, you have the knowledge of the ingredients and the mode of preparation.

The demand for Charter Oak, Challenge and Evaning Star Staves has grown so rapidly of late that we have not filled orders as promatly as desirable; but having now secured the assistance of another Stove Foundry, we shall hereafter confine nearly the entire force of our own establishment to the production of the stoves above samed and hope to fill all orders without delay.

We would call the aftention of those about purchasing, to the success and popularity of all these stoves. No better evidence of their intrinsic merit can be offered; than a statement of the fact, that after is years use and being subject to severe tests in all kind of localities, and to the most bitter and determined opposition that could be invented, that they are to-day the
